

## Ducati® Monster

**CARBON SEAT COVER DUCATI MONSTER**

Material Carbonio

Applications Ducati® Monster

The carbon seat cover proposed by Rossocromo transforms the Ducati Monster into a breathtaking one-set motorbike. The fine line, the great attention paid to the superficial finishes and the elegance of carbon make this detail unique, increasing the value of the motorbike.

**LICENSE PLATE SUPPORT “X-LIGHT” e “PRO-LIGHT”**

Material hardness steel

The peculiar central section V-shaped rib allows easy and fast assembly being ready for the layout of electric connection wires, and guarantees stiffness of the part and a remarkable reduction of vibrations.

The license plate support is designed for the assembly of traffic lights in upper or lower position.

The “PRO-LIGHT” version is supplied with supports for traffic lights

The finishes obtained by durable painting treatments of the parts protect the license plate support from rust or stain, and keep it always as new.

Applications

Code	Version	Finish	Color	Price
58500U9U01VN	X-Light Universal	Painting	Black	€ 89,00
58500U9U02VN	PRO-Light Universal	Painting	Black	€ 89,00

Prices are VAT inclusive

**ALUMINIUM HANDLEBAR CAPS ERGAL UNIVERSAL HOOK**

**Material:** aluminium alloy

**Mounting kit:** Sign:

To link together to aluminium or carbon handlebar

Both the body and the assembly system are made in aluminium alloy with refined colours. It is possible to choose among a wide chromatic range. The universal model can be easily assembled and is supplied with appropriate tool for serration avoiding to damage the aesthetic of the screw.
